* There is a wormhole between the orbit of Rigidus and Alcatron which makes traveling between the inner and outer planets in the solar system easy.

What to get where:

The Avis	Protection shield and instructions how to build it
Rigidus	Quartz
Belua	Oil
Ardor	Kryptonite
Nisus	Scientists
Oceanus	Hydrogen
Atroxus	Metal
Alcatron	Workers

The Petrol station at the end of the Universe	Power-ups and the Improbability drive
The galaxy far far away	Items and special items
